WORK EXPERIENCE

APPLICATION MANAGER

Fraktus AB - 2017 - present

I was responsible for managing the day-to-day operations with our IT development partners, encompassing developers, UX designers, and TA suppliers. I handled the operation and maintenance of both our internal systems and the services we obtained. Additionally, I played a crucial role in leading development initiatives in collaboration with the board, providing support in their business strategic decision-making process.

CUSTOMER RELATIONS MANAGER

Fraktus AB - 2015 - 2017

I was responsible for analyzing our key customers' logistical needs and implementing custom-made solutions. This involved working closely with our 60 different freight partners, understanding their products, and packaging their services into one seamless system.

ACCOUNT MANAGER

Fraktus AB 2012 - 2017

In my role as an Account Manager, I created strong relationships with customers, collaborated with key business executives and stakeholders, and prepared sales reports. I also responded to client queries and discovered new business opportunities among existing customers. Throughout this position, I coordinated with cross-functional internal teams, including Customer Service and board of directors to enhance the overall customer experience.

EDUCATION

CLOUD & ICT ENGINEER

Higher Vocational Education - Lernia, 2022 - 2024

Since 2022, I have been actively pursuing education in cloud services to deepen my knowledge and acquire certifications in Microsoft Azure and AWS. My focus lies in mastering virtual server environments and staying up-to-date with the latest advancements in cloud computing.

TECHNICAL SALES ENGINEER

Higher Vocational Education - Nackademin, 2009 - 2011

My education encompasses a unique blend of sales and IT, allowing me to perceive the business opportunities within technology beyond the technical details.
